

Weathering & Erosion Webquest

Name: _____

Directions: Using the Weathering and Erosion Webquest found on our classroom Weebly page, work to research and answer the questions below. Your job by the end of this assignment is to be an expert on landforms and how they are formed.

1. List at least 5 examples of a landform. Write a detailed description of each landform you choose.
2. In your own words, explain how the Earth's surface changes. Give at least 3 examples of how the surface of the Earth can be changed.
3. Explain the vocabulary term, weathering. Give 2 examples.
4. Explain the vocabulary term, erosion. Give 2 examples.
5. List and explain two ways that land changes shape quickly.
6. List and explain two ways that land changes shape slowly.
